Minya, Egypt

Summary

I am a passionate **React** Developer with hands-on experience delivering over **30** successful projects, including a 15-page e-commerce platform and a social media platform. I specialize in building responsive and user-centric web applications using React, Context API, Redux, and Firebase for seamless state management and secure authentication. My focus is on creating visually appealing, high-performance applications that enhance user experiences and meet business goals.

Skills

React.js | **Redux** | Firebase | Tailwind CSS | Sass | Material-UI | JavaScript | REST APIs
UX/UI Design | Figma | Git | Stripe Integration

Professional Experience

Frontend Internship

Almadrasa

Remote 12/2023 - 9/2024

- Completed **25+** projects in Front end, including a variety of applications such as an **e-commerce** platform, **API-integrated** applications, blog, and Kanban board.
- Enhancing technical proficiency by 75% through continuous learning.
- Developed **mobile** and **tablet** versions, ensuring full responsiveness across all devices.

Projects

- **E-commerce Platform** | [Live Demo](#) | [Repo](#)

Technologies: React.js, Firebase (Authentication), Context API, Figma.

Features:

- Developed a **15-page responsive e-commerce platform**, incorporating user authentication using **Firebase Authentication** for secure sign-ins.
- Implemented **Context API** for global state management, enabling seamless data flow across components.
- Designed a **mobile/tablet-friendly UI** with **Figma**, ensuring a responsive design and providing an optimized user experience across devices.

- **Linkedin-clone** | [Live Demo](#) | [Repo](#)

Technologies: React.js, **Redux**, Firebase (Authentication & Realtime database).

Features:

- Built a **social media platform** that allows users to **sign in with Google** and post content in real-time using **Firebase Realtime Database**.
- Implemented **Redux** for efficient state management, ensuring smooth updates and handling of data across the application.
- Integrated **real-time post updates**, creating a dynamic user experience by displaying new posts instantly.

- **Around-The-World** | [Live Demo](#) | [Repo](#)

Technologies: React.js, Tailwind CSS, Context API, REST API..

Features:

- Created a **country information app** that dynamically displays details about countries using the **REST Countries API**.
- Added **light/dark theme toggling** functionality, providing users with the ability to switch themes based on their preferences.
- Ensured **responsiveness** with **Tailwind CSS**, making the app fully functional across different devices including desktop, tablet, and mobile.

Certifications

- **Frontend Professional Diploma : 4 Tracks | 25 Courses |** [Certification](#)
- **React: Basics to Advanced Track : 3 courses: React Basics, React deep dive, React Projects.** [Certification](#)
- **JavaScript: Basics to Advanced: 4 courses: Fundamentals, Intermediate, Advanced Projects.** [Certification](#)
- **HTML and CSS : Basics to Advanced: 7 courses: HTML, CSS, Responsive design, Animations.** [Certification](#)
- **Programming fundamentals: 9 courses: Fundamentals, Beyond Fundamentals, Projects.** [Certification](#)
- **Git and GitHub Course:** [Certification](#)

Education

Bachelor of Agriculture

Minya University

09/2021 - 06/2026
